

# Information Session on SCOPUS and Thomson Reuters ISI

Mon, 18 May 2015 09:53:00 BST

On Monday 8th June 2015, GDRC is organising an information session on SCOPUS and Thomson Reuters ISI. This session, delivered by Stephanie Hull from Emerald Publishing, will provide an overview of bibliometrics, including an overview of Scopus and Thomson Reuters ISI (Web of Science and the Journal Citation Reports), and the benefits/limitations of both systems. It will include a discussion about the different metrics they use (Impact Factor, new Scopus IPP) and how authors can increase citations to their own work. There will be a demonstration on how colleagues can use both Scopus and Web of Science to see which journals are receiving the most citations, what are the most highly cited papers in their field, and how they can track their own citations.

**Stephanie Hull** is a Publisher at the Emerald Group Publishing Limited. Emerald is a global publisher linking research and practice to the benefit of society. The company manages a portfolio of over 290 journals and over 2,500 books and book series volumes.

- At the end of 2014 Emerald had **58 journals** and **three book series** ranked by Thomson Reuters (ISI)
- **Over 100,000** researchers, academics and authors have contributed to Emerald content since 1994
- Emerald has customers in over **130 countries** and contributors in over **160 countries** demonstrating its commitment to providing international research

Stephanie is the Publisher of the International Journal of Disaster Resilience in the Built Environment, Edited by Professor Dilanthi Amararatunga and Richard Haigh from the Global Disaster Resilience Centre at the School of Art, Design and Architecture. Further information about the journal is available at: <http://www.emeraldgrouppublishing.com/ijdrbe.htm> (<http://www.emeraldgrouppublishing.com/ijdrbe.htm>)
