National Building Research Organization Sri Lanka

University of HUDDERSFIELD
Inspiring global professionals

The National Building Research Organisation hosted a **workshop focused on scientific writing and publishing for researchers in disaster risks and related subjects** on 24th July 2023. The workshop was led by **Prof. Dilanthi Amarathunga and Prof. Richard Haigh** from the University of Huddersfield, UK, who are also esteemed editors of the **International Journal of Disaster Resilience in the Built Environment**, the workshop covered key aspects of the publishing process.

Participants were enlightened on the significance of publishing research, not only as an obligation but also as an opportunity to contribute to the academic community, inspire peers, and advance disaster resilience understanding.

Workshop Participants

Awarding of token of appreciation
